at 6000 ft. WSW 15 mph. increasing and changing towards NW.
4 Dull with some mist and drizzle perhaps fairer intervals later tonight

4.40 pm. Wind bet W & NW 5 to 10 m.p.h. increasing : at 6000 feet WNW 15 to 20 m.p.h. becoming NW
Dull with mist & drizzle at first : probably becoming fairer later tonight : morning visib poor day visib good.
Wind 7 pm. WNW 4 m.p.h. midnight & 4 am. W 4 m.p.h.

1700. (RAF) Wind between NW & West 5 to 10 mph. at 6000 ft. between NW & West 10 to 15 mph.
~~Overcast~~ Mist drizzle & rain probably clearing but probably not before midnight.

8.30 p. (RAF) : Wind between West and NW 5 to 10 mph increasing.
at 6000 ft WNW 10 to 15 mph increasing : Further mist and drizzle. Probably continuing dull till dawn

8.35 pm. Wind NW 5 to 10 m.p.h increasing : at 6000 feet WNW 10 to 15 m.p.h becoming NW & increasing.
Dull tonight with mist & drizzle : showers or occasional rain and fairer intervals probable to-morrow : cool : visib poor early good later
Wind midnight & 4 am armies (2 5) WNW to NW 4 m.p.h
armies (1 3 4) W to WNW 4 m.p.h

16th October 1918

10.30 am. Wind be W & NW 10 to 15 m.p.h increasing : strong on coast.
at 6000 feet NW to N 25 to 35 m.p.h.
Dull with some rain & mist : visib indifferent : cool.
Tempᵗᵘ day & night about 50°.
Afternoon cloud low 10.

4.15 pm. Wind bet W & NW 10 to 15 m.p.h : strong on coast : at 6000 ft
NW 25 to 30 m.p.h
Mainly Dull some mist, & drizzle likely : visib indifferent :
Wind 7 pm. armies (2,5) NW 5 m.p.h (3,1,4) WNW 5 m.p.h
Midnight & 4 am armies (2,5) WNW to NW 4 m.p.h, (1,3,4) W to WNW
4 m.p.h

16.10 (82nd Wing R.A.F.) Wind N.W. 20 to 25 m.p.h. changing towards W
At 6000 ft. N.W. 25 to 35 m.p.h.
Dull some mist and drizzle probable.

17.00h Surface wind W to N.W. 10 to 15 m.p.h. strong on coast
At 6000 ft N.W. 20 to 25 m.p.h. Dull with mist
and occasional drizzle. Perhaps bright intervals
after midnight.

8.~~15~~ pm. Wind westerly 10 to 15 m.p.h decreasing : at 6000 feet WNW
20 to 25 m.p.h
Mainly dull at first with some mist & probably occasional
drizzle or showers : perhaps some fairer intervals later tomorrow.
Visib poor early fair later : cool.
Wind midnight & 4 am. WSW to W 4 m.p.h

2100 Surface wind west 10 to 15 m.p.h.
At 6000 ft. WNW 20 to 25 m.p.h. Dull with mist and
probably some drizzle : low cloud probably below
2000 feet at times.

17th October 1918 *

10.45 am. Wind light variable probably becoming N or NE 5 to 10 m.p.h. strong on coast: at 6000 feet variable probably becoming N or NE & increasing.
Mainly dull and probably further occasional showers & drizzle. Mist or fog at night: Cool: Visib indifferent early fair later. Temp^e day 50 : night 40 to 45.
Afternoon cloud low 8.

17h 0. Wind NE. 10 to 15 mph. at 6000 ft light variable.
82nd Wing Mainly dull, some further drizzle probable: some mist or fog

4.25 pm. Wind light variable becoming N to or NE 10 to 15 m p h strong on coast: at 6000 feet light between N & E increasing later.
Mainly dull: some further drizzle or showers probable: mist or fog at night: perhaps some brighter intervals later to morrow. Cool: visib poor early fair later.
Wind 7 pm midnight & 4 am calm or light variable.

16h45. Surface wind between NW & North 5 to 10 m.p.h.
R.A.F. 6000 ft " ENE 10 to 15 mph.
Overcast, low cloud probably above 2000 ft. aaa some mist and occasional drizzle.

20h20 Surface wind North 5-10 mph: at 6000 ft. NE 5-10 mph increasing.
Mainly overcast: low cloud probably below 2000 feet at times; some mist and occasional drizzle.

9 pm. Wind light northerly increasing to 10 or 15 m p h & probably becoming NE: at 6000 feet NE 10 to 15 m p h increasing.
Mainly overcast: mist or fog tonight & probably some drizzle or occasional rain later: perhaps becoming brighter later to morrow.
Visib poor early fair later.
Wind midnight & 4 am light northerly.

18th October 1918

10·40 a.m. Wind light northerly becoming NE or E 10 to 15 m.p.h: strong on coast: at 6000 feet easterly 5 to 10 m.p.h. increasing.
Cloudy and misty at first: becoming fair: inland fog at night.
Mild day cool night: visib indifferent early fair later.
Temp^re day 58 : night 45.
Afternoon cloud low 6.
Note: indications of a spell of fair weather developing.

4.30.p.m. Wind NE about 15 mph; at 6000 feet E 10 to 15 mph increasing.
Mainly fair, but some low cloud drifting from the North Sea at times: mist or fog at night.

4·30 p.m. Wind light but N & NE becoming NE 10 to 15 m.p.h: strong on coast: at 6000 feet E 10 to 15 m.p.h. increasing.
Fair at first nearly cloudless at times probably becoming dull towards morning: fair again later: inland fog at night.
Visib poor early fair later.
Wind 7 p.m. midnight & 4 a.m. light but N & NE.

16h 45 Surface wind NE 5 to 10 mph: at 6000 feet East 15-20 mph
Fair hazy; probably temporarily cloudless and then fog drifting from NE

8·40 p.m. Wind light but N & NE increasing to 10 or 15 m.p.h from NE fresh on coast: at 6000 feet E 15 to 20 m.p.h.
Nearly cloudless at first: inland fog developing: probably becoming dull tomorrow forenoon with ~~some drizzle~~ / a risk of some drizzle later.
Visib poor early fair later.
Wind midnight & 4 a.m. light but N & NE.

21h00. Surface wind NE 5-10 mph. at 6000 ft. E 15 to 20 mph.
Fair and nearly cloudless at times: inland fog developing probably becoming thick after midnight. Risk of fog drifting from N.E.

19th October 1918

10.40 am. Wind N to NE 10 to 15 m.p.h. light at night: at 6000 feet ENE 20 to 25 m.p.h.
Fair & misty at first: likely to become dull this afternoon & probably some drizzle or showers afterwards: visib indifferent: mild.
Temp day 55 to 60 night 50
Afternoon cloud low 7 becoming 10.

4.45 p.m. Wind N.E. to north 15 to 20 m.p.h. a.a.a. at 6000 feet N.E. 20 to 30 m.p.h. changing towards north a.a.a. Dull probably some showers or drizzle tonight.

4.30 pm. Wind northerly about 10 m.p.h: strong on coast: at 6000 feet ~~NNE~~ but N & NE 20 to 25 m.p.h.
Mainly dull & misty at first: some showers and drizzle likely: perhaps improving later tomorrow: visib indifferent.
Wind 7 pm NNW 5 m.p.h. midnight & 4 am N 4 m.p.h.

4.50 pm. Surface wind between North and NE 5 to 10 mph, strong on coast; at 6000 feet NE 20 to 25 mph: Low cloud probably above 2000 feet in South but low cloud probably below 2000 ft in North with mist and perhaps drizzle; low cloud probably below 2000 feet later in South.

Some further mist and drizzle at first: continuing dull later ~~but~~ ~~with~~ but visib probably improving: mild at first probably becoming cooler later tomorrow.
Wind ~~4 pm~~ midnight & 4 am armies (2,5) NE 6 m.p.h. armies (134) SE to E 4 m.p.h.

9pm: Surface wind NE to North 15 to 20 mph. Strong on Coast. At 6000 ft ENE 30 to 35 mph. Overcast low cloud probably below 2000 ft. Some drizzle and mist.

21st October 1918

10.30 am. Wind (armies 2,5) NE 10 to 15 m.p.h. armies (1,3,4) South 5 to 10 mph (all) becoming easterly 10 to 15 m ph : strong NE on coast.
At 6000 feet E 20 to 25 m.p.h.
Some further drizzle & mist : probably improving later tonight or tomorrow: Visib poor early probably improving later: cool.
Temp day 50 to 55 night 40.
& Afternoon Cloud base 10.

4.15pm. Wind light between East and South ; at 6000 feet SSE 15 mph increasing
Mainly overcast with some drizzle and mist, perhaps becoming fairer towards dawn.

4.20 pm. Wind southerly about 10 m ph increasing : at 6000 feet S 15 to 20 m ph probably increasing.
~~Dull~~ Some mist or fog at first perhaps & ~~probably~~ some drizzle: probably improving towards dawn and becoming fairer in the day.
Morning visib poor day visib fair.
Wind 7 pm. midnight & 4 am light southerly.

4.25 pm Wind light Southerly ; at 6000 feet South 15 to 20 mph increasing:
overcast ; much low cloud below 2000 feet and mist or drizzle.

8.20 pm. Wind light Southerly : at 6000 feet South 15 to 20 mph
Low cloud probably above 2000 feet perhaps becoming fair after midnight, inland fog developing and probably becoming dense.

9.00 pm. Wind southerly 10 ~~to 15~~ m ph but light at night : at 6000 feet South 15 to 20 m.p.h. probably increasing
Perhaps ~~Some fair intervals tonight but~~ ~~Inland mist or fog developing: Probably~~
Dull at first ~~probably~~ becoming fairer after midnight likely to become ~~-ing~~ fair generally but inland fog developing: ~~perhaps becoming~~ tomorrow.
Visib poor early fair later.
Wind midnight & 4 am. SSE 4 m.p.h.

22nd October 1918

11 a.m. Wind between SE & East 10 to 15 m.p.h. but probably NE temporarily this afternoon.

At 6000 feet SSE 20 to 25 m.p.h.

Cloudy and mild with some drizzle probably becoming fine: inland fog developing at night: visib. indifferent.

Temp^re day 55° night 35° to 40°F

Afternoon cloud low 10 becoming 6.

16.15. 82nd Wing R.A.F. Wind light East to S.E: at 6000 ft South 20 to 25 mph.

Mainly dull: some mist or fog & perhaps drizzle.

4.20 p.m. Wind between East & SE 5 to 10 m.p.h: at 6000 feet South 20 to 25 m.p.h.

Mainly Dull: ~~with some~~ and misty at times ~~and fog: and occasional slight drizzle~~ but some brighter intervals likely ~~tonight~~: Visibility indifferent.

Wind 7 p.m. armies (2 & 5) ENE 4 m.p.h. armies (1 3 4) ESE 4 m.p.h.

Midnight & 4 a.m. ESE 4 m.p.h.

1645. R.A.F. Wind between S.E & East 5 to 10 m.p.h.

At 6000 ft. S.E. 10 to 15 mph.

Low cloud probably above 2000 ft. aaa mist probably decreasing temporarily but developing again later.

2015 R.A.F Wind Easterly 5 to 10 mph; at 6000 feet SE 5 to 10 mph

Low cloud probably above 2000 feet; but local bright intervals: fog developing.

9.10 p.m. Wind easterly 5 to 10 m.p.h: at 6000 feet SE 5 to 10 m.p.h.

At first mainly dull with occasional brighter intervals: morning fog: probably becoming fair generally in the day: visib. poor early indifferent later

Wind midnight & 4 a.m. light easterly.

23rd October 1918

11.5am. Wind bet E & NE 10 to 15 m.p.h : strong on coast : falling light at night.
at 6000 ft. S 15 to 20 m.p.h.
Fair but cloudy at first probably becoming fine : mild day cool night with fog developing : a slight risk of thunderstorms later.
Visib indifferent.
Temp. day 55 to 60 night 40
afternoon cloud low 10 probably becoming 6.

4.25 Wind bet NE & N 15 ~~to 20~~ m.p.h increasing : high on coast.
at 6000 feet ENE 15 ~~to 20~~ m.p.h increasing
Cloudy at first but mainly high cloud inland mist or fog at night
Probably becoming dull later tomorrow with a slight risk of rain.
Visib poor early indifferent later.
Wind 7 pm NE 7 m.p.h midnight & 4 am NNE to NE 7 m.p.h

1626 pm Wind NE 20 to 25 mph squally. at 6000 ft ExN 20 mph increasing. Cloudy, but mainly high cloud: inland mist or fog at night.

16h45m. Surface Wind between North and NE 10 to 15 mph. at 6000 ft. East 15 to 20 mph. strong on coast. Fair, but some low cloud probably above 2000 ft. Inland fog developing.

20h20m Between N and NE 15 to 20 mph strong on coast; at 6000 feet ENE 10 to 15 mph increasing:
Fair and at times cloudless : inland fog developing but probably not before midnight.

9.15pm. Wind bet NE & N 15 to 20 m.p.h strong on coast: at 6000 feet ENE 10 to 15 m.p.h increasing:
Fine at first but some morning mist or fog: doubtful later perhaps continuing fair but a risk of some rain or thunderstorms: visib poor early indifferent later.
Wind midnight & 4am NNE 7 m.p.h

24th October 1918

10 a.m. Wind NE 15 to 20 m.p.h. : strong on coast : decreasing tonight & probably changing later towards NW or West.
Fair & mild : some mist or fog developing at night : a risk of unsettled weather developing to-morrow
Temp.re day 56° night 35 to 40.
Afternoon cloud low 5 becoming nil.

16.20 Wind N.E 15 mph decreasing and probably changing towards
82nd Wing RAF N.W. or West & increasing again : at 6000 ft. N to NE about 5 mph
Fair at first with inland mist or fog aaa probably becoming cloudy after midnight.

4 25 p.m. Wind NE to N 10 m.p.h : strong on coast : becoming calm or light variable at night : probably increasing from W again later.
Fair at first with inland fog developing : probably becoming cloudy after midnight with a risk of unsettled weather later.
Morning visib poor day visib fair.
Wind 7 p.m. NNE 5 m.p.h : midnight nearly calm : 4 am probably light westerly.

1640 Wind NE - North 10 to 15 mph. decreasing
RAF. at 6000 ft. North 5 to 10 mph
Cloudless at first aaa inland fog developing but probably not before 11 p.m. aaa. a risk of low clouds drifting from North later.

8 20 p.m. NE to North 5 to 10 m.p.h becoming calm : at 6000 feet North 5 to 10 m.p.h
Nearly cloudless at times but some low cloud : inland fog developing.

9.5 p.m. Wind but NE & North light becoming nearly calm & probably increasing later from west.
Fair & at times cloudless to night with inland fog developing : probably cloudy tomorrow and a risk of unsettled weather towards night. Visib poor early fair later.
Wind midnight nearly calm : 4 am probably light westerly.

25th October 1918

10.45 Wind but NW & West 5 to 10 m.p.h. probably increasing to 15 or 20 m.p.h.
Fair at first but cloudy & hazy: overcast later to-day: ~~with a risk~~ probably
~~of~~ some rain or drizzle: afterwards probably fair again: cool.
Visib improving.
Temps day 50 night 40 to 45.
Afternoon cloud low & becoming 10.

16h22 82nd Wing RAF
Wind West 10 to 15 mph decreasing. At 6000 feet N.W. about 15 mph: ~~mainly~~ dull with mist or fog. Some rain or drizzle probable.

4.25 pm. Wind westerly 5 to 10 m.p.h. probably changing towards NW again temporarily.
Mainly dull with some mist or fog: some rain or drizzle probable.
Visib poor early fair later.
Wind 7 pm. west 3 m.p.h.: midnight & 4 am SW light.

5pm
Surface Wind between West and NW 5 to 10 mph.
at 6000 feet WNW 15 to 20 mph. Cloudy, some mist and drizzle aaa perhaps clearing temporarily after midnight.

20h.15m Wind calm or light westerly: at 6000 ft. NW 15 to 20 mph.
Low cloud probably below 2000 ft + some drizzle at first: mist or fog later

9 pm. Wind calm or light westerly probably ~~becoming~~ N changing towards NW or N & perhaps to NE temporarily.
Dull with slight drizzle at first: morning mist or fog: ~~probably~~ probably becoming ~~follow~~ mainly fair in the day: cool: Visib poor early good later.
Wind midnight & 4 am calm or light airs but SW & W.

26th October 1918

10.50 am. Wind light and variable but mainly westerly.
dull and misty aaa some drizzle likely and perhaps rain.
moderate temp. poor visib.
Temp day ~~55~~ 54 night 40.
Afternoon cloud Low 8.

3.50 pm. Wind light and variable mainly Westerly aaa probably increasing later tomorrow.
~~probably clearing temporarily and then dull again~~
~~with some mist~~ mainly cloudy and misty but probably
clearing at times aaa morning fog. and perhaps
day visib indifferent some drizzle

Wind 7 pm. midnight + 4 am. nearly calm

16.40 RAF. Surface wind variable light: at 6000 ft. NW 15 to 20 mph
Probably clearing temporarily aaa then inland fog
developing aaa low cloud probably below 2000 ft again
after midnight.

17.00. 82nd Wing RAF. Wind variable light: at 6000 ft. NW 15 to 20 mph.
Probably clearing temporarily but inland fog developing
and perhaps also more low cloud drifting over.

20.35. Wind calm becoming ~~W~~ S W a West 5 to 10 mph.
~~fine at~~ cloudless at times at first aaa aaa ~~low~~ inland
fog and low cloud likely to develop. aaa ~~perhaps~~ probably continuing fair
but a risk of some drizzle ~~aaa~~ aaa poor visib ~~cold~~ cold morning mid day.
~~Hot. Indications~~
Wind midnight + 4 am. nearly calm.

Sunday 27th October 1918

10.50 a.m. Wind bet south & west light: calm at night.
Cloudy & misty: perhaps some drizzle: probably temporarily cloudless at night with inland fog developing and perhaps ground frost: moderate day temps.
Temps. day 50 to 55 night 35.
Afternoon cloud low 8 probably becoming 4.

82nd Wing RAF. 16.34. Wind between South and S.W. moderate on coast, light inland.
at 6000 feet NW about 20 mph. Mainly dull, mist or fog:
probably slight drizzle: perhaps some fairer intervals towards morning.

4.20 p.m. Wind light southerly falling nearly calm at times.
Dull with some mist & fog at first perhaps slight drizzle
probably becoming fair generally to morrow: visib poor early fair later.
Wind 7 p.m. light southerly: midnight & 4 am nearly calm.

16h46. Surface wind between South and S.W. becoming nearly calm.
at 6000 feet NW 20 to 25 mph decreasing.
Mainly overcast: low cloud probably below 2,000 feet at times:
Mist or fog and perhaps slight drizzle.

8.15 p.m. Wind bet S & SW 5 to 10 m.p.h. becoming nearly calm: at 6000 ft NW
15 to 20 m.p.h. Mainly overcast low cloud probably below 2000' some
mist ~~or~~ & fog: some further drizzle probable.

8.40 p.m. Wind light bet S & SW nearly calm at times ~~probably~~ perhaps increasing from S later
Mainly overcast at first: some mist or fog: further slight
drizzle probable but ~~perhaps~~ also occasional fairer intervals ~~to morrow~~.
Very mild: visib poor early indifferent later.
